

## File specification sheet

### **Colour matching:**

- If you require a certain and precise colour please supply a Pantone / PMS colour.

If you have a photo or printed image you would like us to use please supply files in the following format:

- RGB or CMYK colour setup
- Image size needs to be saved at 300dpi at 25% of actual final print size
- All text converted to outlines
- All strokes converted outlines

### **File Formats:**

To get the best results we prefer files to be Adobe CS4. If you have a newer version of Adobe, the file can be saved back to this version

- Adobe Photoshop High Res JPEG *saved back to CS4*
- Adobe Illustrator AI *saved back to CS4*
- Adobe Illustrator PDF *saved back to CS4*
- Adobe Illustrator EPS *saved back to CS4*
- Adobe Illustrator TIFF *saved back to CS4*

If you have vinyl cutting required for your job please supply files in the following format:

- Adobe Illustrator AI *saved back to CS4*
- Adobe Illustrator PDF *saved back to CS4*
- Adobe Illustrator EPS *saved back to CS4*

### **NOTE: Please do not send the following file formats:**

- PNG
- GIF
- DWG
- DXF
- Adobe Indesign
- Coral Draw CDR
